Professional Summary

Front-End Developer with **2+ years of professional experience** specializing in **React.js, TypeScript, and modern UI development**. Skilled in building **responsive, high-performance, and accessible web applications** aligned with enterprise standards. Experienced in **component-driven architecture**, state management, and collaboration with cross-functional teams to deliver scalable, maintainable, and user-centric solutions.

Experience

GlobalLogic India Pvt Ltd

Sept 2023 – Present

Software Engineer

Noida, Uttar Pradesh

- Developed an end-to-end licensing and rate card management application by building **.NET Core Web APIs** and integrating them with a **React + TypeScript** frontend, enabling real-time license usage and overconsumption insights and **preventing potential 1M+ dollar revenue losses**.
- Designed and delivered backend endpoints to export up to **12 months** of historical consumption as **CSV**, improving self-serve reporting and reducing manual support effort.
- Built and optimized reusable API-driven UI flows with **Fluent UI, Tailwind CSS**, and Dataverse-backed data retrieval to support consistent experiences across **3+** enterprise modules.
- Automated synchronization between **Dataverse** data and environment-specific configuration files using **Azure Functions**, improving deployment reliability across multiple environments.
- Authored and maintained **stored procedures** powering multiple read-heavy endpoints against a **SQL Data Warehouse**, improving query performance and ensuring consistent data aggregation logic.
- Optimized **.NET Core Web APIs** consumed by multiple services across environments by improving request validation, payload shaping, and data access patterns, reducing latency and stabilizing cross-service integrations.
- Collaborated with UX, product, and backend stakeholders to align API contracts, error handling, and domain models, reducing integration effort by 20% and improving end-to-end delivery predictability.

GlobalLogic India Pvt Ltd

Feb 2023 – June 2023

Software Engineer Trainee

Noida, Uttar Pradesh

- Developed and integrated features for enterprise web modules using **React.js** while consuming **REST APIs**, ensuring robust client-server workflows and consistent data contracts.
- Improved maintainability by refactoring shared UI components and standardizing API consumption patterns, increasing reusability and readability by 25%.
- Collaborated in Agile sprints with engineers and QA to triage defects, validate API responses, and deliver milestones on schedule with consistent feedback loops.

Projects

AM Archives | *Next.js, TypeScript, ShadCn, Tailwind CSS, Firebase Auth, Vercel*

[Github](#)

- Designed and implemented a **dynamic, responsive manga reader** with reusable ShadCn and Tailwind components and efficient data fetching patterns, achieving a 98% Lighthouse performance score.
- Integrated **server-side rendering (SSR)** with Next.js to boost SEO and reduce **Time-to-Interactive by 40%** through optimized routing and caching-friendly page composition.
- Engineered a secure **.NET Core** backend proxy to integrate with the MangaDex API, enforce request validation/rate limiting, and eliminate CORS issues via server-side API aggregation.

Utility Bill Payment System | *React, .NET Core, Bootstrap, SSMS*

[Github](#)

- Developed a full-stack bill payment system with a **.NET Core REST API** and **React** dashboard, implementing CRUD workflows for customers, bills, and payment records.
- Implemented **JWT authentication**, role-based access, and centralized error handling in **.NET Core**, ensuring secure, reliable API access and 99.9% uptime during testing.

Technical Skills

Languages: JavaScript (ES6+), TypeScript, HTML5, CSS3, C#

Frameworks & Libraries: React, Redux, Context API, Next.js, Fluent UI, Tailwind CSS, Bootstrap, .NET Core

Tools & Platforms: Vite, Webpack, Git, GitHub, VS Code, Visual Studio, Azure App Services, Firebase

Testing & Optimization: Jest, React Testing Library, Performance Profiling

Education

Amity University Lucknow

Bachelor of Technology in Computer Science

July 2019 – June 2023

Noida, Uttar Pradesh

Certifications and Achievements

Microsoft Certified: Azure Fundamentals (AZ-900)	Jan 2025
Gem of the Month (x2)	Sept 2024, Mar 2025
Best Team Award for Outstanding Performance	Q1 2025
