Professional Summary

C# / .NET Core Software Engineer with **3+ years** building backend systems at a **Microsoft engineering partner**. Specialize in **C# .NET Core Web APIs**, **serverless Azure Functions**, **SQL Data Warehouse**, and **REST microservices**, with **React/TypeScript** delivery. Hands-on with **layered architecture**, **async/await**, **Entity Framework**, and **Azure DevOps CI/CD**.

Experience

GlobalLogic India Pvt Ltd

Jun 2023 – Present

Software Engineer

Noida, Uttar Pradesh

- Architected the **licensing analytics backend** for an internal Microsoft platform – **C# .NET Core REST APIs** with a **layered architecture** and **dependency-injected** services on **SQL Data Warehouse** – powering real-time tracking and **12-month CSV exports**.
- Shipped multiple **Azure Functions** as **serverless microservices** (HTTP and timer triggers), including a **GitHub REST API** integration auto-generating Markdown PRs.
- Built secure **C# .NET Core Web APIs** with **async/await** and **Entity Framework**; secured endpoints via **MSAL (Entra External ID)**, **OAuth 2.0 / OIDC**, **Graph API**, and **Ping Identity SSO** with **RBAC**.
- Tuned **SQL Data Warehouse** access with covering indexes, batched reads to eliminate **N+1** patterns, and caching – **reducing average API latency 3–4x**.
- Configured **Azure DevOps CI/CD** pipelines for .NET with automated build/test gates; **raised deployment cadence from bi-weekly to several times weekly**.
- Delivered **React / TypeScript** dashboards on the .NET APIs; built a reusable component library **cutting UI duplication across 3+ projects**.
- Built an in-app **AI assistant** on the **Copilot Client SDK** with **GitHub Copilot** and **Claude**, applying **prompt engineering** and **context grounding** over internal docs; used **AI-assisted development** for scaffolding/tests, **accelerating delivery**.

GlobalLogic India Pvt Ltd

Feb 2023 – Jun 2023

Software Engineer Trainee

Noida, Uttar Pradesh

- Authored production **C# server-side validation plugins** enforcing business rules on a Microsoft docs review pipeline, **cutting release turnaround time**.

Projects

Utility Bill Payment System | *C# .NET Core Web API, SQL Server, Entity Framework, JWT, React*

[GitHub](#)

- Built a **C# .NET Core REST API** on **SQL Server** with a **layered architecture**, **Entity Framework**, **JWT** auth, and **ACID-compliant** endpoints; paired with a **React** dashboard; sustained **99.9% uptime**.

AM Archives | *C# .NET Core, Next.js, TypeScript, Tailwind CSS, Firebase Auth, Vercel*

[GitHub](#)

- Engineered a **C# .NET Core API** proxy over a REST API with **response caching** and **rate-limit handling**; **Next.js SSR** front-end scored **98% Lighthouse** and **40% faster Time-to-Interactive**.

Technical Skills

Languages: C#, TypeScript, JavaScript (ES6+), SQL (T-SQL), HTML5, CSS3

Backend: .NET Core (Web API), ASP.NET Core, REST APIs, Azure Functions (Serverless Microservices), Entity Framework, LINQ, Dependency Injection, Async/Await

Data & Cloud: SQL Server, SQL Data Warehouse, Stored Procedures, Indexing & Query Optimization, Azure App Services, Azure AI Services, Application Insights

Auth & Security: MSAL / Entra ID, OAuth 2.0, OIDC, JWT, RBAC, Graph API, Ping Identity SSO

Frontend: React, TypeScript, Redux, Context API, Next.js, Fluent UI, Tailwind CSS, Bootstrap

AI Engineering: GitHub Copilot, Claude, LLM Integration, Prompt Engineering, Context Grounding, Azure OpenAI

DevOps & Tools: Azure DevOps (CI/CD), Git, GitHub, Visual Studio, VS Code, Postman, Vite, Webpack, Jest, React Testing Library

Education

Amity University Lucknow

July 2019 – June 2023

Bachelor of Technology in Computer Science

Noida, Uttar Pradesh

Certifications and Achievements

Microsoft Certified: Azure Fundamentals (AZ-900)

Jan 2025

Gem of the Month (x2)

Sept 2024, Mar 2025

Best Team Award for Outstanding Performance

Q1 2025
